Federal Elections Commission

RE: Oregon Republican Party  
FEC Committee ID # C00153031  
October monthly, Pre General, Post General and  
Year End Report (11/28/9 -12/31/6)

Dear Ms. Benitz:

In a response letter relating to the aforementioned RAFI, we indicated that we allocated the salaries of employees, which was not reflected as such on our report that we filed - the salaries are reflected correctly on Schedule B Line 30. However in review of our calculations for our transfers, we will be making a corrective transfer from our federal account to the nonfederal account in the amount of \$30,031.64 on 5/9/7. This will be reflected on the upcoming scheduled June monthly report.

Additionally, please note that we have amended our October monthly, Pre General, Post General and Year End report. We have relocated some of the expenditures from Schedule B to Schedule H4. These particular expenses were for administrative overhead and are therefore allocable expenses. Accordingly, those amounts have been calculated in to a permissible transfer total. We have broken this down into each reporting period (see below). These new totals take into account the amended changes and calculate the permissible transfer amount per reporting period. Since we have reviewed these per reporting period, we are within the permissible 70-day window.

In regard to the following amended reports:

Permissible Xfer per Line 21a(ii)    Actual Xfer per Line 18

Oct Monthly	7,779.54	0
PreGeneral	20,002.96	21,847.30
PostGeneral	8,297.25	14,097.91
Year End	12,483.23	42,649.41
Totals	48,562.98	78,594.62

--- Difference calculated at \$30,031.64 - corrective transfer made on 5/9/7.

Additionally, we are in the process of reviewing our previous reports for 2006 to see if there were allocable expenses reported on Schedule B that should also be reflected on Schedule H4. This would then again affect the permissible transfer amounts. Since we want this process to be accurate, at this time we are making the above corrective transfer based on the current reports in question in order to make this a timely correction. We are currently working as quickly as possible to begin our amendment process with any corrections that are necessary.

Sincerely,

\*\*\*\*\*
